## ABOUT

I am a dedicated and passionate professional, committed to achieving my goals and excelling in my responsibilities. I approach tasks with a strong work ethic and a proactive mindset, ensuring they are completed efficiently and effectively. I am open to learning and willing to undergo training to enhance my skills and adapt to new challenges. With proper guidance and support, I can quickly acclimate to any work environment, consistently delivering quality results.

## WORK EXPERIENCE

### SPIDC Programmer

October 2023 - August 2024

#### .Net Web Programmer

- After I graduate in September I look a job and I started my career as a .NET developer, focusing on designing and developing user-friendly front-end Web interfaces using HTML, CSS, and JavaScript. My responsibilities include implementing backend logic and ensuring the functionality of systems using the .NET Framework. In addition to programming in experience.

### Adaptdev Solution

June 2022 - January 2023

#### Freelance WordPress Developer

- During my freelancing tenure with Adaptdev Solution, a work-from-home setup, I specialized in designing and creating e-commerce websites using WordPress. Additionally, I developed advertisements for clients (American) within the WordPress platform. Communication with clients was effectively managed through Slack, ensuring seamless collaboration and project success.

### Adaptdev Solution

March 2022 - June 2023

#### Adaptdev Internship

- During my internship, I collaborated on various team-based projects also familiar in SDLC, including the development of websites such as e-commerce and shopping platforms. My primary responsibilities involved backend programming using languages such as PHP, JavaScript, and Python. Occasionally, I was assigned frontend development tasks as well.
- Additionally, I was tasked with assisting other interns in troubleshooting system or toolrelated issues. Over time, I was appointed as a project leader, where I guided the team and provided support to fellow interns, ensuring the successful completion of projects.
